

We have 3 topics on the agenda for our upcoming March 3 meeting:

1) the partnership calendar

2) reflection on how the additional 15 days of instruction have been used

3) a glimpse at the mid-year evaluation report prepared by the Evaluation Team

The calendar is clearly the most TIME sensitive topic; therefore, we'll start there. We have at least a couple of DRAFTS in play, but we DO NOT HAVE A CALENDAR SET — but we need to! We'll use our DT meeting as a work session so please invite colleagues from the partnership schools to attend and bring their ideas and issues and let's do what worked so well last time and that was work it out together in a work session. Everyone is invited and welcome.
