During the summer, all courses are offered during the extended thru session from 9:00 – 4:00 except for the Applied Project course. The Applied Project course will be scheduled in conjunction with your other classes and will require approximately ½ day every other week. Classes will begin the first week in June and will end the third week in July to accommodate the public school calendar.

*It is recommended that the approved elective be taken in either spring semester or the second summer.

** If taken previously another elective can be substituted
