

Artifact Cover Sheet

Artifact Number:	27
Artifact Type:	Course Materials - Syllabus
Course (if applicable):	ESCI 6000

Applicable CTL categories:

	Problem-based Learning
X	Project-based Learning
X	Inquiry-based Learning
X	Work-based Learning
	Service Learning
	Collaborative or Cooperative Learning
	Authentic Assessment

Professor(s) of record: Dr. Tom Koballa

Description and Justification of CTL:

The intent of the TS³ course is to prepare present teachers to become mentors to beginning teachers in school settings. The focus of the course is two-fold: one, the teachers begin with a fifty-hour course and two, the teachers take their new knowledge and apply it in an internship of fifty-hours. The course is research-based and emphasizes discussion and applications. This is an example of contextualized learning in that the activities are framed from a research perspective and that the teachers learn about mentoring through an on-site internship.
