

**University of Georgia
Confidential Health Record
CREATE '08 Conference
JANUARY 3-8, 2008**

Please fill in the information below. Disclosure of health conditions is voluntary, but having information about pre-existing health conditions will enable the conference staff to help you obtain proper medical assistance in the case of an accident or illness. In addition, we can help pre-arrange medical personnel for consultation overseas. Language barriers and incomplete medical records can delay treatment. While you are abroad, it is important that you continue any medical treatment or medication that you are currently receiving. We recommend that individuals with chronic health or mental health conditions discuss their travel plans with their health care providers.
