11th Annual ATHLETIC TRAINING STUDENT WORKSHOP JUNE 24-26, 2009

proudly sponsored by:

THE 11TH ANNUAL A.T.S. WORKSHOP

This three day comprehensive workshop, held on the campus of the University of Georgia in Athens, is designed to expose the high school student to the field of sports medicine and athletic training. No previous experience is needed to attend. Students participating in either of the fun and exciting educational tracks will be shown many different aspects available in the highly rewarding field of sports medicine. This workshop is a hands-on program, allowing students to learn and practice new skills. At the end of the workshop, the student will return to his/her high school feeling more confident as an athletic training student.

PROGRAM FORMAT:

The workshop will be offered over a three day, two night period. Overnight accommodations will be with the University of Georgia Housing Services where students will be supervised by UGA staff and divided by Male/Female. Students who wish to commute will be supplied parking permits.

WHO SHOULD ATTEND:

Any high school student who will be in grades 9-12 as of September 2009. Instructional classes will be held in the St. Mary's Hospital Athletic Training Education and Research Laboratory in the Ramsey Center, and the Butts-Mehre Athletic Training Center located on the campus of the Georgia Bulldogs.

EDUCATION TRACK:

Topics for this years camp will be offered for two different levels of Athletic Training Student (ATS).

RED TRACK: This introductory level is designed for the ATS that is either new to the field of Athletic Training or is new to our summer program. Students choosing the RED education track will experience a hands-on learning environment in the areas of:

CPR certification, Foundations of Injury Evaluations, Heat Illness Prevention, Treatment of Acute Injuries, Injury Prevention, Ankle Taping, Knee Taping, Hand and Wrist Taping, General Bracing Methods, Communication Skills,, and Emergency Action Plans.

BLACK TRACK: This education track is more advanced, and is designed for the ATS returning to our program, or is a high school senior. Students choosing the BLACK education track will experience a hands-on learning environment in the areas of:

CPR certification, Principles of Assessment, Rehabilitation Techniques, Mastering Taping and Bracing, Concussion Assessment, Current Topics in Sports Medicine, Heat Illness Prevention, Orthopedic Evaluation Techniques, Emergency Action Plans, Strength and Conditioning, and information concerning BOC certification and how to choose the right college/undergraduate Athletic Training Program for yourself.
