*ESCI 4030 can replace SPED 2000

A passing score on PRAXIS I is required before taking ESCI 3450, ESCI 4450, and ESCI 4460. A passing score on PRAXIS II is required in Physics before being recommended for certification. Broad field science certification is not possible within the degree program, but may be obtained by completing a 12-15 semester hour concentration in each of three additional science fields (biology, chemistry, and earth sciences) not included in areas A-E of the core curriculum. At least 9 hours of the concentration in each of the three additional science fields must be at the junior or senior level.
